

# Get More for Your Workers' Compensation Dollar

You have committed to implementing loss control recommendations and building risk management programs to protect your workers and control cost. But is there more you can do to control your total cost of risk?

- Are the most experienced medical professionals being utilized?
- Are there hidden costs with your program like bill review? PPO savings? Nurse case management?

Through our National Accounts services, we provide a comprehensive workers' compensation product specifically created for retrospective and large deductible buyers. There are no hidden costs. We bundle all the services you need into a complete package that reduces your overall insurance cost.

## All-in-One Simplicity

- Proactive claim and medical management services built to provide frequent communication.
- Loss control experts who develop individual loss control strategies for each location.
- Client relations consultants who act as a single point of contact for customers who have multi-state locations or want to streamline their communication.
- A risk management system that allows you to view your loss trends and is updated daily.

To learn more, call 1-800-258-2667 and ask for a member of the National Accounts team.

# 18%

Since 2017, average claim costs have been 17-20% below the industry average.\*

\* Based on 2017-2021 Workers' Compensation Division data (excluding medical only) and industry data from NCCI, WCIRB (CA), NYIRB and NJCIRB.
