

Zero Effect

0%

By utilizing our National Accounts services, we're able to bundle all of your workers' compensation services into a comprehensive package that reduces your overall cost of risk. We're transparent, there are no hidden fees or back-end charges. It's what we call the 'Zero Effect.'

The Zero Effect is a crucial factor when comparing AF Group's Workers' Compensation Division's National Accounts to our competitors. While other carriers may appear to cost less at policy inception, true costs aren't known for years due to additional charges incurred throughout the life of the policy.

Zero Effect

- 0% Bill review fee as percentage of savings or fee per bill
- 0% Fee for in-house fraud detection and prevention services
- 0% PPO review fee as percentage of savings
- 0% Fee for in-house causation analysis
