

AF Group RiskView: Access to Customized Data Intelligence

Policy Year Dashboard

AF Group's RiskView delivers detailed workers' compensation loss analysis straight to your inbox.

Customizable Dashboards: Client-specific dashboard panels equipped with powerful visuals and information provide an effective way to analyze loss performance in key areas.

Robust Reports: An extensive library of reports and loss runs present both high-level and detailed data to help reveal underlying loss trends.

Location Data: Location hierarchies can be established to analyze trends by state, region, department or a company's unique organizational structure.

Scheduling Flexibility: Automatic delivery of reports via email based on a predetermined distribution schedule and recipient list. Reports can be sent individually or grouped into comprehensive report packages.

Multiple Formats Available: Emailed reports are available in Adobe PDF, Microsoft Excel and Microsoft Word.
