

# Lezage Training Center

## Lezage Training Center Program

Unlimited, free-of-charge, 24/7 access to an online training system provided by the Lezage Training Center is available to all of our policyholders. Since we started offering Lezage trainings in 2008, thousands of courses have been completed.

This unique solution helps your employees easily achieve their training goals. When compared to traditional classroom-based instruction, online courses such as those Lezage provides, can help:

- Reduce training costs and time
- Improve trainee comprehension rates
- Record employee training completion rates
- Provide consistent delivery of safety content

## Course Topics

The courses available through the program touch upon an array of topics and issues that impact employees in a variety of industries:

- Accident investigation
- Back safety
- Bloodborne pathogens
- Crane rigging
- Defensive driving
- Emergency action and fire prevention
- Environmental
- Fire extinguishers
- Good housekeeping
- Hazard communication
- Lockout-tagout
- Material safety data sheets
- Mold hazards and prevention
- Noise and hearing protection
- Office ergonomics
- Personal Protective Equipment
- Portable power tool safety
- Respiratory protection
- Safety orientation for new employees
- Slips, trips and falls
- Substance abuse
- Workplace safety for employees
- Workplace violence
- And more!

## Simple to Use and Administer

Once you sign up with Lezage, your employees will receive a unique link and access code allowing them to participate in training at their leisure. Additionally, many Lezage courses are available in both English and Spanish.

Administrative features include printable completion certificates, custom course libraries for different departments or locations, group presentation options and training reporting.

## Contact Us to Register

To gain access to the Lezage Training Center, **contact your dedicated Loss Control consultant.**
