

AcceleRATE

Accelerated Submission Process

Our accelerated submission process, AcceleRATE, aims to reduce the manual effort required to submit a quote by offering you an alternative method for this data entry. The process is very simple:

1

Send us a complete ACORD 130/125 with any supporting documentation – we'll take care of the rest.

2

Our advanced tools will read the ACORD application and bridge submission data into our system, eliminating the need for manual entry.

3

Your submission will be viewable in our rating system upon completion and you will be notified when action can be taken.

If you have any questions, please reach out to your business development consultant.

All policies are underwritten by a licensed insurer subsidiary.
